

iPhone – how to install the Background

STEP 1: Launch Safari on the iPhone and navigate to this address:

<http://www.illuminart.com/backgrounds>

Select your background – make sure it is for the iPhone.

STEP 2:

You will see the new background load on the screen. Touch the screen and hold your finger down for a second. You should see the screen to the right.

Press the “Save Image” button

STEP 3:

Launch the Photos application on the iPhone and locate the downloaded “background”.

STEP 4:

Press the action button.

STEP 5:

Press the “Use as Wallpaper” button.

STEP 6:

Press the “Set” button.

STEP 7:

Press the “Set Both” button.

You have now added the new background to your phone!
